Engineering Protection Since 2017

Secure Vision Technologies is a premium engineering firm delivering integrated security, fire safety, networking, and smart infrastructure solutions across Maharashtra and India.

Founded by **Ajit Bhoge**, we design and deploy systems meeting the standards of Fortune 500 enterprises — from smart factories and hospitals to corporate campuses and government facilities.

7+ Years

Proven track record

Pan India

Project-based delivery

2–4 hrs

Emergency response

Vision, Mission & Core Values

Our Vision

To be Maharashtra's most trusted integrated security and smart infrastructure partner — delivering world-class protection for every enterprise.

Engineering Excellence

Every installation meets international standards with rigorous QA, documentation, and commissioning protocols.

Our Mission

To engineer and deploy integrated systems that protect people, assets, and operations — combining advanced technology with responsive service.

Customer Commitment

Long-term partnerships through proactive AMC, rapid emergency response, and dedicated technical support.

SECURITY SOLUTIONS

Intelligent Security, End-to-End

AI & IP Surveillance

AI-powered cameras with real-time video analytics, intrusion detection, and remote monitoring.

Access Control

Biometric, card-based, and mobile access with visitor management and audit trails.

Biometric & HR Systems

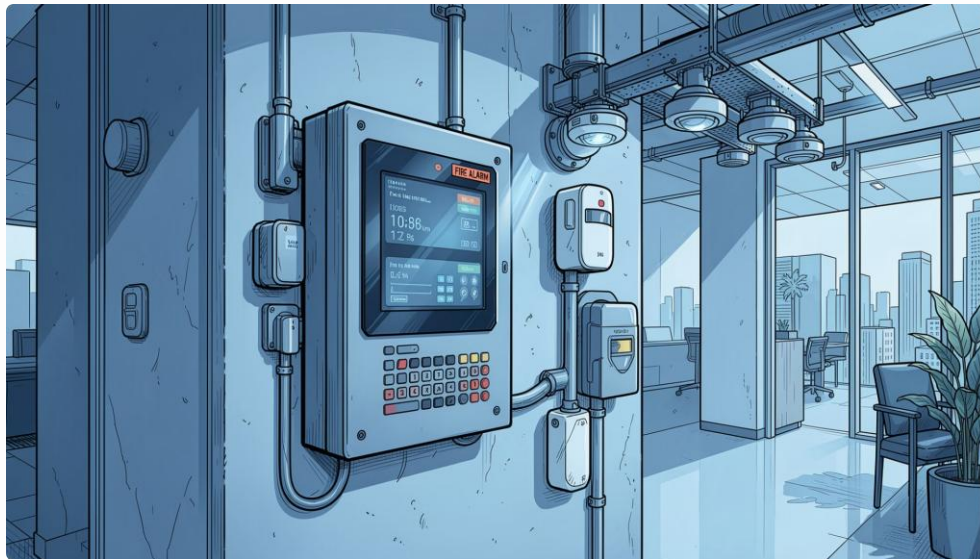

Attendance, payroll, and canteen management integrated with enterprise HR platforms.

Smart Detection

Rodent monitoring and water leakage detection for critical facilities.

Protecting Lives with Advanced Fire Systems

Complete fire and life safety ecosystems — from detection and alarm to suppression and evacuation — engineered to national and international safety standards.

Fire Alarm Systems

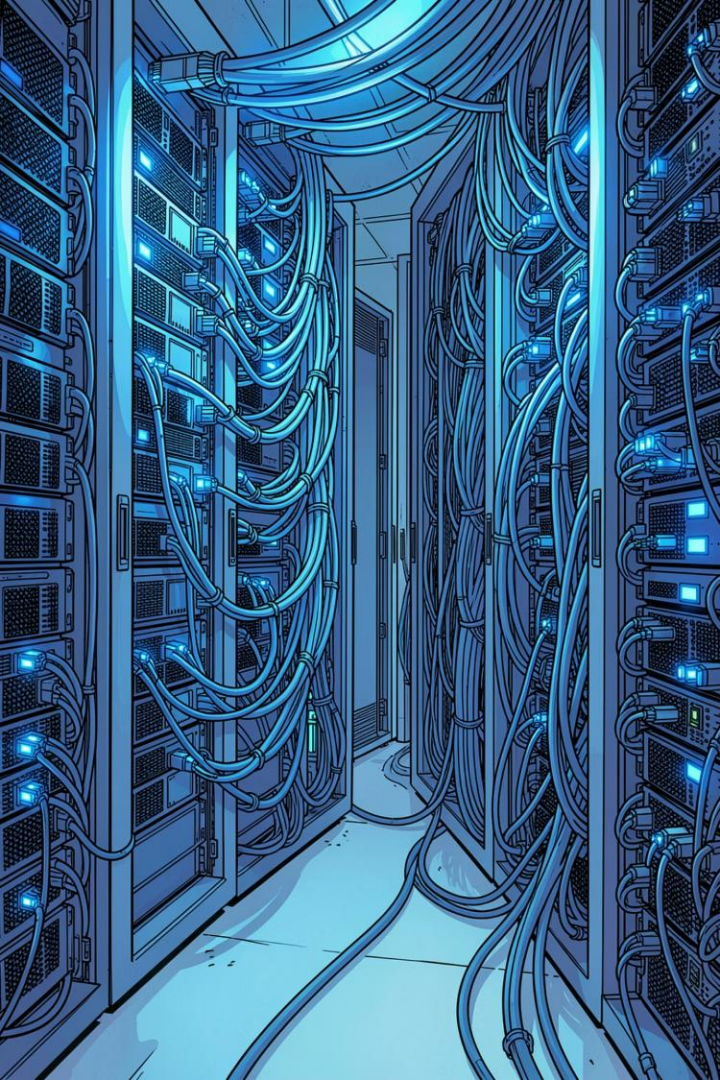

Addressable and conventional panels with smoke, heat, and gas detection.

Fire Hydrant & Suppression

Hydrant systems, sprinklers, and suppression for industrial and commercial facilities.

PA & Emergency Voice

Public address and voice evacuation systems for safe, coordinated emergency response.

NETWORKING & IT INFRASTRUCTURE

Connected. Secure. Scalable.

Enterprise Networking

LAN, WAN, structured cabling, and Wi-Fi deployment for offices, campuses, and factories.

Server Rooms & IT

End-to-end server room design, rack installation, and IT infrastructure management.

Network Security

Firewalls, VPNs, and managed security from Cisco, Fortinet, SonicWall, and Aruba.

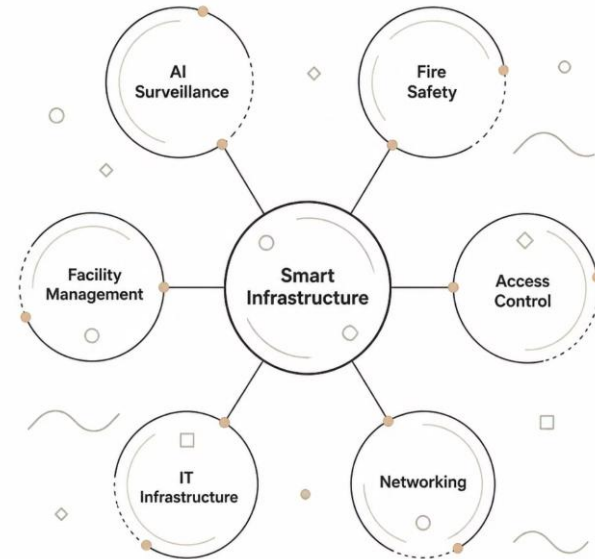

Enterprise Communication

EPABX, IP PBX, video door phones, and nurse calling systems for seamless operations.

Intelligent Buildings, Smarter Operations

Integrated Smart Solutions

Converged systems that unify security, safety, communication, and facility management — reducing complexity and cost.

Visitor Management

Digital check-in, badge printing, and host notifications.

Nurse Calling Systems

Emergency call solutions for hospitals and care facilities.

AMC Services

Annual maintenance contracts with SLA-backed response times.

INDUSTRIES WE SERVE

Sector-Wide Expertise

Manufacturing & Auto

Factories, warehouses, and automobile plants with perimeter security and safety systems.

Healthcare & Pharma

Hospitals, clinics, and pharma facilities with nurse calling, access control, and fire safety.

Hospitality & Retail

Hotels, retail chains, and banks with visitor management and surveillance.

Corporate & IT

IT companies, corporate offices, and SEZ campuses with integrated networking and security.

Technology Partners & Trusted Clients

Global Technology Partners

Certified partnerships with world-leading manufacturers ensure genuine products, factory training, and priority technical support.

Major Clients

Trusted by leading organizations across industries.

- Lupin Limited • Nipro India • Wipro PARI
- Grauer & Weil • Ador Welding • InterGlobe Hotels
- Parakh Foods • Ramee Hotels • Opcito Technologies
- Jumbotail Technologies • Amrutwel Global School

Serving 15+ major clients across manufacturing, pharma, IT, hospitality, and education.

Surveillance

Hikvision • Bosch • Dahua • UNV
• CP Plus

Fire & Safety

Honeywell • Agni • Ceasefire •
Siemens

Networking

Cisco • Fortinet • Aruba • D-Link
• Netgear

Access & HR

ZKTeco • HID • eSSL • Biomax •
Mantra
